

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

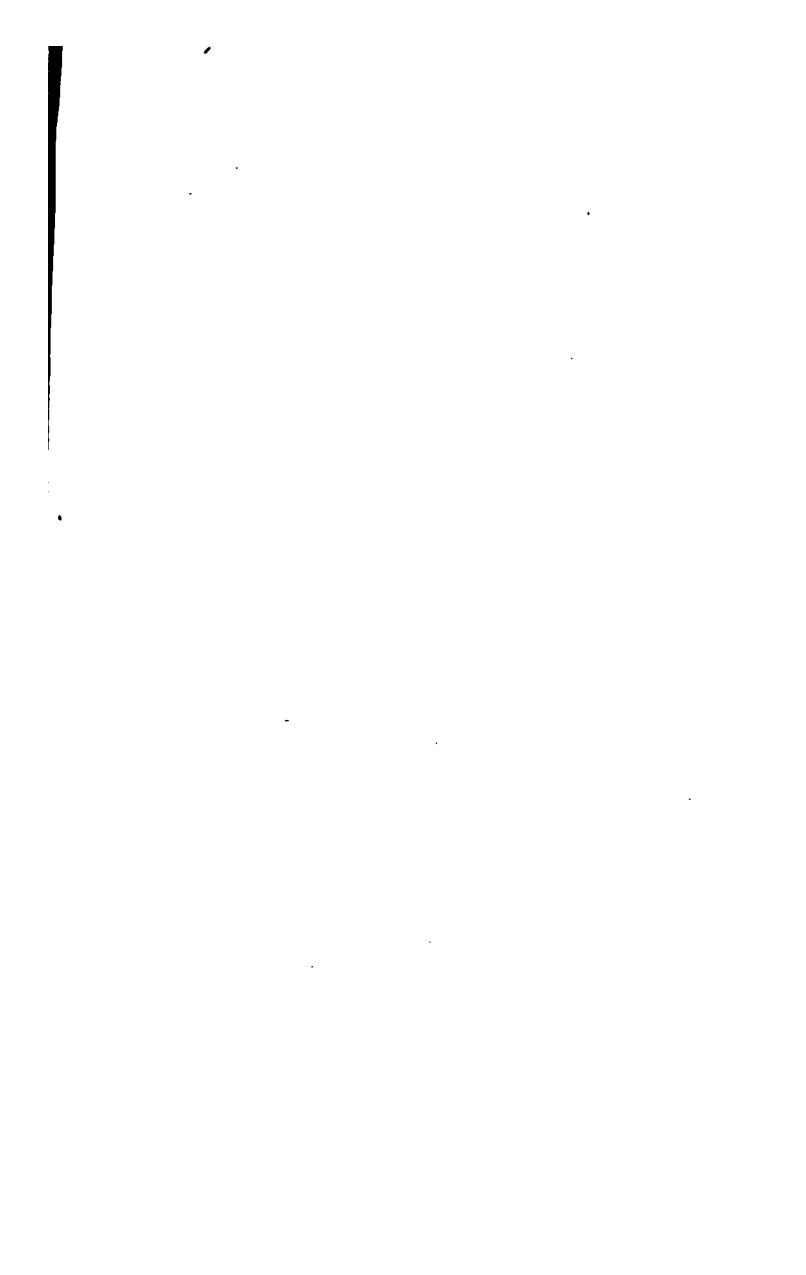

We also ask that you:

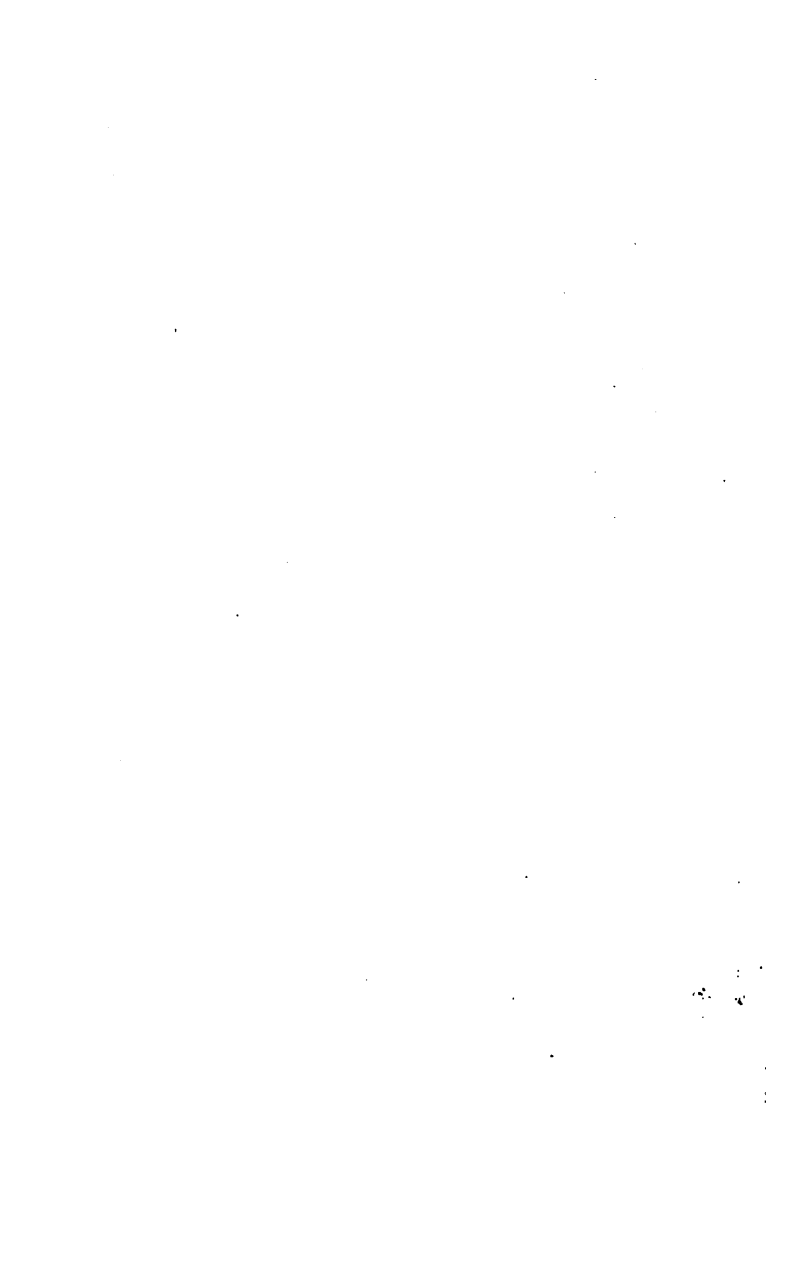

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THIS DESCRIPTION OF THE ROADS OF

This Work is entered, according to Act of Parliament,
 in the Register Book of the STATIONERS COMPANY;
 and whoever prints it, or any Part of it, will be pro-
 secuted. This Caution is given to those who have
 plundered the former Editions, which were also entered,
 as Invasion will no longer be submitted to.

The BOOK-BINDER is desired to guard the Map in the Middle; as by that Means it will open without the Trouble of unfolding, on which Account it was reduced to the Size of the Book.

P R E F A C E.

THE Utility of an Accurate Description of the Roads, is so obvious to every Person who travels, as not to require any Demonstration; and, as the Preference which the following Work claims before any other of the Kind hitherto published, will be evident on the least Comparison, we shall decline enlarging on that Head, and only mention what is necessary by Way of Explanation.

By the Plan adopted in executing this Work, it contains all the new Roads down to the present Time, with the Alterations and Improvements made in the old; and exhibits at first View, the Distance of each City, Town, or remarkable Village, from London, with a particular Account of the Roads leading to it, measured from the different Standards in London, according to the Mile-Stones on each Road, and arranged in the following Order, viz.

1. The Kent Roads, measured from *London Bridge*.
2. The Croydon, Ryegate, and Epsom Roads, from *Westminster Bridge*.
3. The Kingston Road, from the *Stones End in the Borough*.
4. The Brentford Road, from *Hyde-Park-Corner*.
5. The Uxbridge and Edgeware Roads, from *Tyburn Turnpike*.
6. The Barnet Road, from *Hicks's-Hall*.
7. The Ware Road, from *Shoreditch Church*.
8. The Essex Road, from *Whitechapel Church*.

The

The Measurements, which are taken in Miles, Halves, and Quarters of Miles, are arranged in two Columns, the first giving the Distance from one City, Town, or Village to the next; the second, the Number of Miles from the Commencement of the Road. And, (for the farther Amusement of the Traveller) at the End of each Road is given, a brief Account of whatever is worthy of Observation; such as Parks, Seats, Castles, Ruins, &c.

To find the Road from London to any City, Town, or Remarkable Village, in England or Wales, look for the Name of the Place in *the Index to the Roads from London*, and the Figure opposite to it refers to the Page in which is that Part of the Road containing the Place looked for; thus, from London to Durham, the Index directs you to Page 126, where you find Durham with its Distance from London, &c. though the Description of the Road in which it is situated (being that from London to Edinburgh) begins in Page 124, and ends in Page 127.

In describing the lesser Roads branching out from the greater, the last Remarkable Place on the great Road, or the Spot where the lesser turns off, is first given, with a Reference to the Page in which you will find the Road so far as to that Place; and afterwards the Branch is continued: as for Instance, to find the Road from London to Chertsey, in Surry, the Index refers you to Page 36, where you find it in the following Form, *viz.*

To Hounslow, p. 21			
Feltham,	<i>Midd.</i>	3 $\frac{1}{2}$	9 $\frac{3}{4}$
Littleton,		3 $\frac{3}{4}$	13 $\frac{3}{4}$
Chertsey,	Surry	3	17
			20

By which it appears you are referred to Page 21 for this Road, as far as Hounslow, (the last Remarkable Place on the great Road) from thence the Remainder of the Road to Chertsey is given after the above Form in Page 36, as directed

directed by the Index. In like Manner for the Roads from London to Askrig, the Index directs to Page 133, from whence you are referred to Page 126 for one Road as far as Boroughbridge, and to Page 119 for another as far as Settle, the Continuation of each Road being given in Page 133.—These References are made use of in order to prevent the numberless Repetitions which otherwise would unavoidably occur in a Work of this Kind.

In looking for the Cross Roads, Recourse must likewise be had to *their* Index, which is so plain as to require no farther Explanation than what is there mentioned.

Having thus, to the best of our Abilities, supplied the Traveller with a full and accurate Description of a much greater Collection of Roads than was ever before attempted; yet, as the different Routs which Travellers may have Occasion to take are almost infinite, and consequently not comprisable in a Volume of this Size; we have, in order to complete our Plan, compiled, and published separately, a *Second Part* to this Work, entitled, *A TRAVELLING DICTIONARY; or, Alphabetical Tables of the Distances of all the Cities; Borough, Market, and Sea-Port Towns, in Great Britain, from each other, &c.* By these Tables, the Traveller will find the Compass he must make to visit any Place or Places which he may be desirous of taking in the Course of his Journey; and will likewise be enabled, at setting out, to form an Estimate of his Time and Expence, by ascertaining the Number of Miles he must travel, with the greatest Exactness, should the Tour he proposes to make be ever so much about, or irregular. Those who have experienced how varying, and often contradictory, have been the best Accounts they could procure of the Distances of Places on their Journey, and how vexatious in their Consequences, will readily acknowledge the Utility of a Work of this Kind.

The *Travelling Dictionary* being printed on the same Size as the *Description of the Roads*, the two bound together make a complete Travelling Companion.

The Roads of Scotland are also printed of the same Size, and may be had bound up with the above, or separate, Price 6d.

A Correct List of the Fairs of England and Wales, being printed of the same Size, may be had bound up with the Book of Roads, or separate, Price 6d.

☞ The traveller on horseback who wishes for a most exquisite prospect, may have it by going from Shrewsbury to Welsh Pool, by another way. Go to Wespry 8 $\frac{1}{2}$ miles on the Montgomery road, there turn by the inn on the right hand, keep a track over the hill, inclining to the r. and go down to Buttington, known by a small church, and just beyond it, a wooden bridge over the Severn. From the brow of the hill, see the Vale Powis Castle and Park, the town river, &c. &c.

A m. beyond Welsh Pool is Powis Castle and Park, seat of the Earl of Powis. From Montgomery to Welsh Pool a new turnpike road is making, only

75] ROADS measured from TYBURN TURNPIKE. [76

miles, it passes Lord Hereford's, crosses the Severn by Mr. Jones's, and then comes into the other road.

† The traveller who goes from Dynafmouthy to Cann's Office, ought to be very particular in enquiring the road, especially after rains; a river is to be forded twice near Cann's Office which is sometimes too deep. There is another way not so good, by which the water may be avoided. From Cann's Office, he will easily get information.
